How to obtain a quote and place an order

1. Define the agency requirement: include technical specifications, quantities, performance or delivery needs and any required support.

2. Use the NASA SEWP Quote Request Tool (QRT), the recommended method to request quotes and support fair opportunity. https://www.sewp.nasa.gov/sewpvi

3. Evaluate responses under the applicable acquisition rules and agency policies; document the selection as required.

4. Have the authorized agency contracting official issue and route the delivery order in accordance with current SEWP PMO instructions.

Fair opportunity

As a multiple-award GWAC, SEWP VI is subject to fair opportunity requirements under FAR Part 16.505(b), including applicable exceptions and SEWP contract provisions. The SEWP QRT supports the

ordering activity's competition process. Consult current SEWP guidance for the precise requirements for each order.

Customer support and order issues

For quote questions, ordering assistance, installation, warranty, extended warranty, software support, technical support, delivery, or a problematic order, contact the FRC SEWP program team. Include the contract/order number, item, delivery information and a description of the issue. FRC will coordinate with the appropriate fulfillment or technical support contact.
